Product Summary

"Upgrade Your Audio Experience with Our High-Power Plastic Driver Unit!".

Unleash the full potential of your audio system with our powerful Plastic Driver Unit. With a robust power rating of 300W and a high-quality PET-204 replacement voice coil, this unit delivers crystal-clear sound and deep, rich bass. Its 16-ohm impedance ensures compatibility with a variety of systems, and the 27mm voice coil diameter means it can handle high volumes without distortion. Upgrade your audio setup today and enjoy a new level of audio excellence.
